APPLE ROOT GRAFTS (Ready to Plant).

Our grafts are tied 100 in a bunch; each bunch is labeled; make order even hundreds of a variety as we do not break bunches. We use orchard cions, and No. 1, 3/16 and up, straight roots, to make our grafts (3½ to 4 inch root—6 inch cion). We can ship grafts now or hold until planting time. Terms are one-fourth of amount with order, balance when ordered shipped. Grafts should be shipped by express.

PEAR GRAFTS ON NO. 1 JAPAN STOCKS.

Pear grafts do better if grafted at the collar. While in some sections of the country the Piece Root Pear Grafts do well, as a rule, we believe it pays to plant the Whole Root or Crown Pear Grafts.
